RB-60

VERSATILE FILLING AND CAPPING MACHINE | JARS & BOTTLES

The RB-60 is a **versatile** machine designed for **filling and capping all types of jars and bottles**.

The possibility to work on each side makes it a compact machine equipped with many functions such as dust removal, filling, cap or lid deposit, screwing & sealing, etc...

It benefits from a record format changeover time thanks to a SMED design specific to GH Filling Machines and considered the best on the market.

FEATURES

Up to: 60 pcs/min
Filling capacity: 1 to 1000ml
Dosing accuracy: $\pm 0.1\%$
Product height: up to 290mm
Product diameter: up to $\varnothing 110\text{mm}$

BENEFITS

Simplified & intuitive use.
Quick format changeover using SMED tools system.
BRUSHLESS technology on all axes with HMI design.
Clean-design.

OPTIONS

Two-phase filling.
Heat sealing.
Reducer snapping.
Deposit of rod pumps.
AIRLESS filling.
AIRLESS snapping.
